

Petition – for drainage Hargreaves Street East

To His Worship the Mayor & City Council

We the undersigned residents & ratepayers of Hargreaves Street humbly sheweth, that the present state of the east end of Hargreaves Street is calculated to be injurious to health through the quantity of stagnant water & poisonous matter allowed to collect, through want of proper drainage and seeing that a small expenditure might put a stop to what, possibly may prove disastrous if allowed to remain during the summer months should it please your Council to grant immediate action in the matter your petitioners will ever pray &c. &c.
