

Prayer – for repairing Telegraph Lane & levelling

City of Sandhurst 19th July 1872

To The Mayor and Councillors,

The underwritten petition of Burgesses and Citizens, resident in, or daily passing along, Telegraph Street ~~unnamed~~ (~~“and which might be called Fletcher Street”~~) humbly sheweth

That the aforesaid street commencing at Mitchell Street, running between the Bath and Macpherson’s stables to Short Street.

That your petitioners are entirely cut off from the principal centre of business, by reason of a large and dangerous gathering of water, “known as Loridan’s Dam” spreading over the whole Street aforesaid, also the lower end of Edward Street, Such water not serving any public purpose –

That Hargreaves Street being unformed and impassable, numbers of residents in Upper Dowling Street and vicinity are driven to the use of ~~Fletcher~~ Telegraph Street, aforesaid, when the Dam is low enough to permit them so to do. To reach Pall Mall through Dowling Street, or High Street via Short Street are at present the only ways open to us, and a source of great inconvenience and loss to your petitioners -

That as the Street aforesaid can be used for traffic over the whole of its length without ~~any~~ much outlay, save the levelling of the Dam bank now blockading the Street.

That in said Street there are twelve new building whose traffic and trade are interfered with and damaged by the said Dam.

That the immediate levelling of the said embankment, so as to encourage and facilitate traffic, will be a highly acceptable boon to numberless Citizens as well as to Your present petitioners –

List of Petitioners

City of Sandhurst, 1st July 1842
To The Mayor and Councillors,

The underwritten petition of Burgesses and
Citizens, resident in, or daily passing along,
Telegraph Street ~~and which might be~~
~~called "Hatcher Street"~~ humbly sheweth —

That the aforesaid street commences at
Mitchell Street, running between the
Bath and Macpherson's stables to Short Street.

That your petitioners are entirely cut off
from the principal centre of business, by
reason of a large and dangerous gathering
of water, "known as Lordan's Dam," spreading
over the whole street aforesaid, also the lower
end of Edward Street. Such water not serving
any public purpose —

That Wardreaves Street being unformed
and impassable, numbers of residents in
Upper Dowling Street and vicinity are driven
to the use of Hatcher Street, aforesaid, when
the Dam is low enough to permit them so to
do. — To reach Pall Mall through Dowling
Street, or High Street via Short Street are
at present the only ways open to us, and a source
of great inconvenience and loss to your
petitioners. —

That ~~as~~ the street aforesaid can be used
for traffic over the whole of its length,
without ~~any~~ ^{much} outlay, save the levelling of the
Dam bank now blocking the street.

That in said Street there are twelve new
buildings whose traffic and trade are
interfered with and damaged by the said
Dam,

That the immediate levelling of the said
embankment, so as to encourage and
facilitate traffic, will be a highly acceptable
boon to numberless citizens as well as to your
present petitioners —

Martin Hanson	

for Signatures,

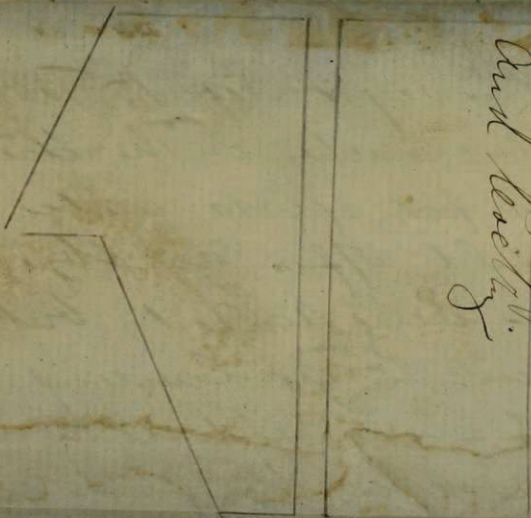

The Surveyor reports that Mr. Lorida's dam encroaches on the street - he has held it for years under license. If he would offer no objection to the street being raised but object at present to the leveling of the dam bank - To put down a Culvert and make passable roadway from Short Street to Lorida's small bridge will cost about £70 -

George R. Stearns
Surveyor
