

## **Petition – Rate payers in Bridge St complaining of drainage**

1/11/1871

We the undersigned ratepayers and residents in Bridge Street and the vicinity, beg to call your attention to the state of the old storm channel through want of drainage into the new channel and the consequent accumulation of large pools of filth and putrid water at the intersection of all the old drains and which will in the hot season endanger the health of the inhabitants and probably cause the spread of contagious disease in the neighbourhood and we earnestly request that measures may be taken without delay to remedy the evil.

### **List of Petitioners**
