

Petition Against removal of vegetable market from Mundy Street

1st May 1872

To the Mayor and Members of the Borough Council, Sandhurst

Gentlemen,

We, the undersigned, ratepayers and others, understanding that an attempt is being made to remove the Wholesale Vegetable Market from Mundy-street to Williamson-street, respectfully beg to protest against the proposed scheme, because, when the site for the New Retail Market Buildings was fixed upon, it was distinctly understood that if the western portion of Market-square was appropriated for retail, the eastern half was to be set apart for the wholesale business of the market. A change would not only be a direct breach of faith, but would be a manifest injustice to property holders and residents at the eastern end of the town. We are also of opinion that there is a greater space where the wholesale vegetable market has been hitherto held than where it is proposed to remove it to.

We therefore trust that you will consider the claim herein set forth, and instead of effecting any change of site, will take into serious consideration the advisability of improving the condition of the sheds now standing in Mundy-street, and make them better fitted for the purpose for which they were intended.

We are Gentlemen,
