

## **Petition – Stagnant water in Hargreaves St east**

Sandhurst 4<sup>th</sup> April 1872

To the Health Officier & Inspector of Nuisances Sandhurst

Sir,

We the undersigned residents in Hargreaves Street east beg most respectfully to call your attention to the condition of the drainage in our locality, there is scarcely any fall, and the stagnant water accumulates opposite our dwellings, the offensiveness of which is greatly increased by the drainage from the Butchers shop in our neighbourhood, the stench of putrid blood & green stagnant water is unbearable at times and we are sure is dangerous to health the children specially suffer, one of us has lately lost a little one and ascribes its death to this cause.

We entreat that you will take measures to remedy this state of things, and your petitioners will ever pray &c
