

Petition – Ratepayers in White Hills for crossing Scott Street

White Hills
11 October 1870

To the Mayor and Councillors of the Sandhurst Borough Council

Gentlemen

We the undersigned inhabitants residing on the White Hills and in its vicinity, have the honor to present to you Honorable Council that the want of a crossing over the Storm Channel at the foot of Scott St is a Source of much inconvenience to your Memorialists, many of whom, living on the West side of the Channel, who are called daily by their business to the East side are obliged, when the water is running, to make a circuit of 1½ mile whereas a crossing here would lessen the distance to ½ a mile, the same applying to those who have occasion to cross to the Western side.

Your Memorialists therefore very respectfully beg that a Footbridge, with a double handrail, so as to be safe for children, may be constructed over the Channel in a line, or thereabouts with Scott St, the cost of which, we believe, would be very trifling in comparison with the boon conferred.

And Your Memorialists will as in duty bound &c &c

List of Petitioners

White Mills October 1876

To the Mayor and Councillors
of the Sandhurst Borough Council

Gentlemen

We the undersigned inhabitants residing on the White Mills and in its vicinity have the honor to represent to your Honorable Council that the want of a crossing over the Storm Channel at the foot of Scott St is a source of much inconvenience to your Memorialists, many of whom, living on the West side of the Channel, who are called daily by their business to the East Side are obliged, when the water is running, to make a circuit of $1\frac{1}{2}$ mile whereas a crossing here would lessen the distance to $\frac{1}{2}$ a mile, the same applying to those who have occasion to cross to the Western side.

Your Memorialists therefore very respectfully beg that a Footbridge, with a double handrail, so as to be safe for children, may be constructed over the Channel in a line, or thereabouts with Scott St, the cost of which, we believe would be very trifling in comparison with the boon conferred.

And Your Memorialists will
as in duty bound &c.

The Juncos Juniper returned the cost of
fullway to with. Should arrange floors
at L.R. and has also to put up the
about 34 or 35 miles of the road have
been forced to make the bridge duty
account in the night
