

## **Petition – State of Booth Street**

Unto His Worship the Mayor and the Honorable Council of the City of Sandhurst

The Humble petition of the inhabitants of that portion of the City in the vicinity of Booth and MacKenzie Streets, Golden Square

Humbly Sheweth

That your Petitioners would desire to draw the attention of the Council to the fact that the whole of North Booth Street allotments on each side has been built upon lately.

That your Petitioners would desire respectfully likewise to draw the attention of the Council to the state of North Booth Street, inasmuch as there is literally no means of passage in the street for vehicles of any description, and that at night it is positively dangerous to stir abroad.

That your Petitioners would desire simply to state their Case to the Council, being well aware of the many calls of this nature daily made by reason of the fast and daily increasing extension of the City, but would anxiously entreat that the wants of your Petitioners would be ordered to be inquired into, and that a road be caused to be made, that your Petitioners may have access to their dwellings.

And your Petitioners, as in duty bound will ever pray

Booth Street - between MacKenzie St and  
Rowan St is a very bad State - There  
being several excavations crossing it  
No fire in holes about 12 chains in length  
from a road 22 feet wide with an embank  
I estimate roughly will cost £80
