

## Petition – Golden Gully goat nuisance

July 29 1870

To the Worshipful the Mayor and Councillors of the Municipality of Sandhurst.

Gentlemen;

The undersigned ratepayers of Golden Gully and its immediate vicinity once again express the hardships we are placed under by our goats being taken from us by a man acting under your authority; Some months since this matter was brought under your notice and it was then understood that the impounding of these animals was to be restricted to the town and main roads; that promise has now been broken for our goats do not go near any main road; we are situated nearly three miles from the Town Hall and comparatively speaking quite in the bush, where the animals are no nuisance and where we are unable to purchase milk for our young children; this is really an intolerable nuisance and an act of brutal cruelty to both the children and also towards the dumb animals for they are left to starve in a barren paddock; and in conclusion allow us to say that this action is producing a large amount of ill feeling and at the same time can be productive of no possible good.
