

Petition – Hargreaves St be passable to traffic and stagnant water to be removed

26.3.1873

To His Worship the Mayor and Councillors of the City of Sandhurst

The petition of the Ratepayers and Inhabitants of Hargreaves Street.

Showeth

That there is no formed road or Street opposite our residences situate between Mitchell and Short Streets. That the pool of stagnant water which has been allowed to remain undisturbed for a number of years is most injurious to health and dangerous to Pedestrians at night time.

That during the Winter season it is almost an impossibility to reach our dwellings and no vehicle can be driven to our doors.

That we have expended considerable sums of money improving our holdings & the new buildings for the Savings Bank at our end of the street cannot be approached except from Mitchell Street.

Your petitioners therefor pray that before the commencement of the Wet season you will be pleased to direct the formation of the roadway from Mitchell to Short street aforesaid and

Your petitioners will ever pray

List of Petitioners

March 18/3

Referred to Surveyor for report.

G. A. F.

28/3/73

The Surveyor reports that a roadway
22 feet wide $\frac{1}{2}$ is ordered to be made
which will cost £160 - a pool of
water lies in the center of the street
so near which it will be necessary
to make a waterway through
Mr. W. Sewell's park and land
to the creek - crossing both
have - so far as whole
width will cost with drainage
£500 or £340 more
than the present order

G. R. Keane
Surveyor
