To the Right Worshipful the Mayor and City Councillors of Sandhurst

Sirs

Seeing in the Newspapers report of the City Council a few weeks ago the language attributed to our worthy Mayor when opposing the Motion proposed by Cr Vahland relative to the "Kerbing and Channelling the North side of the Mclvor Road between the Royal Oak hotel and Donovan Street"

As this Matter is to be reffered to you again I hope you will be good enough to bear in mind that it was in this place that my wife's ankle was dislocated 3 months ago, that she was consequently unable to attend her shop and other duties for 6 weeks that two of my children and several others both old and young have been frequently hurt there owing to the unfinished and dangerous state of the footpath. I have been paying rates here during the last 14 years and so have my neighbours on this side of the road. In the face of these facts the majority of your Council have been adding insult to the injuries from which I and my family have been suffering through your indifference or neglect in not expending on this place, even one shilling of the money which I have contributed during 14 years. As the majority of you with his Worship considers the expenditure even of that sum (one shilling!) "Simply ridiculous" under these Circumstances such language is nothing less than a gross insult to ratepayers here. Trusting that you will in justice look to the wants of this locality and thus give us cause not to think so harshly of you.

I have the honor to be

Sirs

Your obedient Servant
