

Petition- Complaint about drainage in Panton Street

Golden Square Sept 4/72

To His Worship the Mayor & the Councillors of the City of Sandhurst

Gent.

We the undersigned residents on the South side of Panton St. Golden Square find it utterly impossible to drain our allotments either of the storm water, or of the waste water used for domestic purposes & as this latter is especially of the greatest importance to health as well as cleanliness & comfort we beg that the Council will take suitable measures to remedy this evil. The difficulty arises from the fact that the Allotments on this side of the Street fall towards High Street between which & it are other sold allotments the owners of which object to having drains carried through them. As the subject has already caused some ill feeling amongst adjoining holders it is thought an application to you is the proper course We therefore earnestly beg your favourable & early consideration of this matter & remain Gent

Golden Square Sept. 4/72

To His Worship the Mayor & the Councillors of
the City of Sandhurst.

Gent.

We the undersigned residents on the South
Side of Paulton St. Golden Square find it
utterly impossible to drain our allotments either
of the storm water, or of the waste water used
for domestic purposes. As this latter is
Especially of the greatest importance to health.
as well as cleanliness & comfort we beg that
the Council will take suitable measures to
remedy this evil. The difficulty arises from the fact
that the Allotments on this side of the Street fall towards
High Street between which & it are other sold allotments
the Owners of which object to having drains
carried through them. As the subject has already
caused some ill feeling amongst adjoining holders.
it is thought an application to you is the proper course.
We therefore earnestly beg your favourable & early consideration
of this matter. I remain Gent.

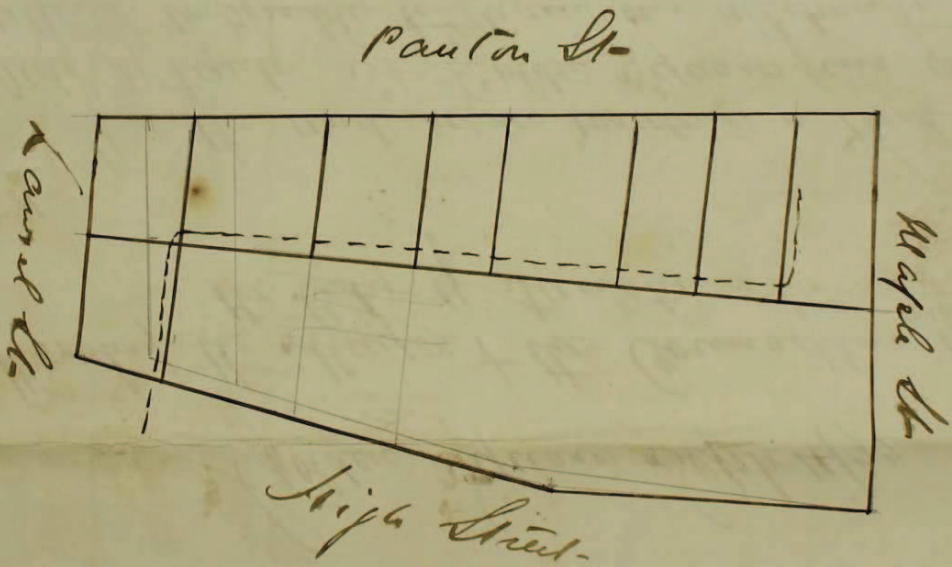

Your obed^t s^{ts}.
J. H. Richards.

J. M.

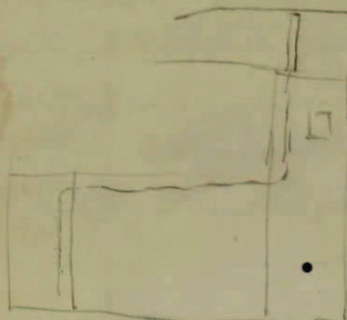

The allotment - in Canton St. between
 Laurel & Maple Streets - The properties
 of Messrs. Roberts - Osborne - Stent
 Richards - Verjans - Warder & Cleary
 have a natural fall to High Street through
 private properties - The lower ends of the
 allotments have also a fall towards
 Laurel Street - There was an open earth
 drain a portion of the distance draining
 out to other private properties in High
 Street which has been obstructed
 causing disputes

I would recommend an open
 brick drain be made along lower ends
 of properties thence through School
 ground to High Street Class 348 Bristol St.
 11 ch open drain & pipe
 Through path to cost £46

George R. Stearns
 Surveyor
