

Petition – for footpath in Mount Korong Road be carried on to the British American Hotel

Iron Bark
13th May 1873

To the Mayor and Members of the City Council of Sandhurst

Gentlemen,

We the undersigned inhabitants of Ironbark in Barkl[e]y and Sutton Wards beg to draw the attention of your honourable body to the necessity that urgently exists for the continuation of the formation of the footpath along the Mount Korong road from the Lamberts' Post Office to the British and American hotel. We would point out that no footpath has been made along that part of the road ever since its proclamation although it is the main artery of the district leading into the city at present.

Any one walking along the side of the road on a dark night is in great danger of being run over by cabs & omnibuses that sometimes tear down the hill at a terrific pace; or the unfortunate pedestrians are liable to stumble over one of the enormous excavations which we are to be met with at every step. When Cr. Boyd carried his motion for the formation of the footpath as far as the Post Office it was distinctly understood that the remaining portion of the line to the top of Ironbark hill was to be carried out without delay; & we urge on the Council to proceed with this necessary work in justice to a large number of ratepayers in both wards.
