

## **Petition – for repair – McKenzie Street**

18<sup>th</sup> July 1872

To the Worshipful the Mayor and members of the City Council Sandhurst

Gentlemen

We, the undersigned ratepayers, beg respectfully to bring under your notice and consideration the present state of McKenzie St from [?] to Allingham's Crushing Machine which, from the large amount of traffic continually passing over it, has rendered it not only positively disgraceful, but actually dangerous.

We beg to give it as our opinion that the traffic upon this road (or Street) is, and will for a long period continue to be, greater than upon almost any other in the district, in consequence of the quartz from almost all the Claims on the New Chum line of the Reef having to pass over it to the various crushing machines, and that, as at present constructed, it is totally inadequate to its purposes.

We therefore pray that your honorable Council will see the necessity of at once repairing that portion of the Street already formed with the view to its extension at as early a date as possible when we state that the footpath, formed for the convenience of the inhabitants, has been rendered almost impassible by drays laden with quartz driven over its surface, in consequence of their being unable to pass along that portion of the road designed for their use

Trusting this humble petition will receive at your hands the consideration imperitively due to it we as in duty bound will ever pray &c

Signature of Ratepayers in the neighbourhood and others interested
