

Petition – To have dust swept from View Place

To the Worshipfull the Mayor and Council of the Borough of Sandhurst

We the undersigned resident ratepayers of View Street, from the corner of Rowan Street to Barnard Street, would respectfully call your attention to the material that was taken from under the View Point culvert and placed on the above named street as a substitute for road metal; we find that after having had so much rain it has had no effect as to the material becoming solid or bound together. The road in its present state, is a slough of Dust, unbearable to the residents, and extremely disagreeable to the general traffic.

We further respectfully request that you will immediatly cause the same to be swept off and carted away.

[27 March 1871]
