

Petition- for footpath in Carpenter St

Sandhurst
July 2nd 1874

To the Mayor and Councillors
Gentn.,

We beg to call your attention to Carpenter St. in which improvements are now being made but which we are informed do not embrace the formation of a footpath on the East side -

The work as proposed to be completed by present contract will leave the place not only inconvenient but dangerous to life and limb.

Last night on a part said to be completed a child was near losing its life:

To prevent so serious a case we call your attention to the place feeling assured that you will so far extend the improvements as to [create ?] a footpath to be made or something to protect us.

We are Gentlemen,

Yours very respectfully
