

Petition – re state of footpath in Mackenzie Street

Sandhurst

Feb. 18th 1874

To the Mayor and Councillors of the City of Sandhurst

Gentlemen,

We the undersigned Ratepayers residing in Mackenzie and Wattle Streets desire to draw your early attention to the state of the Footpath in Mackenzie Street between Short and Wattle Streets and to point out

- (1) That no portion of the City within a few hundred yards of the Post Office is in such a disgraceful condition as the one referred to here
- (2) That the intersection of Short and Mackenzie Street is a general depot for rubbish of every description and frequently pedestrians have to form a track through broken bottles and other offensive debris.
- (3) That on one side only of Mackenzie Street (between Short and Wattle Streets), is a footpath in any way formed and that the bare rock in many places along this path stands above the ground six to twelve inches which on dark nights is absolutely dangerous to life and limb.
- (4) That the traffic along this street is now very considerable, therefore your petitioners consider their request both urgent and re[i]sonable

We are yours
