Petition - State of Maple Street

Golden Square July 29th 1870

To the Mayor & Councillors of the Sandhurst Borough

Gent

We the undersigned residents of Golden Square respectfully beg to call your attention to the state of Waterworks St.

Your petitioners beg your favourable consideration of this subject chiefly on account of its being absolutely dangerous to the great number of children & adults daily passing & repassing this road.

The danger is caused by the subsidence of the ground near the Waterworks' fence causing several de holes. Communicating with the excavations below. There are also some holes in the road (or near it) which are full of soft mud & being at the same level as the road are quite likely to be walked into either night or day. We therefore beg that you will cause these grievances to be remedied as soon as possible & remain Gent Your obed^t servants

James Fraser
